# Performance Management

Performance reviews are an essential tool for developing employees, building better teams, and growing your business. However, if not done correctly, the process can be inconsistent, ineffective, and time-consuming—leaving you with a lot of data, but little insight. Take your performance reviews to the next level with Netchex.

NetPerform

Conduct employee reviews. Assign and track review tasks company-wide. Gain insight into performance and growth with comprehensive data. Improve your employee evaluation process with NetPerform, Netchex's comprehensive performance management solution.

Greater Options & Flexibility

Conduct highly customizable peer, manager, and self-evaluations of employees. Craft your own questions to create in-depth evaluations with greater flexibility, including unlimited questions and answers, optional comment fields, and customizable point scales.

Easily Assign & Track Reviews

Manage the entire performance management process from your dashboard. Assign and track evaluations, set assignment and due dates, review and approve tasks—all with just a few clicks.

Dashboard Data & Insight

Get the most out of your company's results and data with an easy-to-use and customizable dashboard. Create insightful, easy-to-access reports to compare scores between individuals and teams and gain insight into growth with comparisons over time.
