

# Recruiting & Onboarding

The first step to successful talent management is hiring the right people. Netchex combines an intelligent applicant tracking system (ATS) with an innovative onboarding platform that improves and simplifies your entire hiring process. With recruiting, onboarding, and payroll combined in one streamlined place, you can go from help wanted to fully staffed with just a few clicks.

## Recruit Qualified Candidates

Finding the best person for the job starts with recruiting. NetRecruiter is a powerful applicant tracking system that streamlines recruiting, interviewing, and candidate scoring to help you secure the right hire.

## Smarter Hiring Decisions

Hire with confidence using comprehensive job posting and resume management, including templated job descriptions, customizable resume filters, interview evaluation reports, online background checks, compensation analysis, and offer letters.

## Compliance Simplified

Fill out and file I-9's, W2's, and all state and federal forms within the Netchex system—complete with electronic signatures. Upload employee handbooks and company policies to get new hires off to the best start.

## Onboarding Made Easy

Spend more time welcoming a new employee to the team and less time on paperwork. NetGuide enables faster, more efficient onboarding with online tasks before the first day, employee profiles, digital training, and a customized dashboard to manage it all.

## Automation & Alerts

Push new hire information into the Netchex payroll system instantly—no re-keying! Task alerts keep new hires, managers, and administrators on schedule for outstanding and upcoming responsibilities.
