

## SCOTT + REID GENERAL CONTRACTORS

With better processes come better results and more satisfied customers. That's why Scott + Reid has earned a reputation across Texas as the general contractor of choice for complex design and capital improvement challenges. With 25 years of high-profile interior renovation and ground up construction experience, Scott + Reid offers discerning Texas customers exceptional quality and unparalleled service.

Scott + Reid administrators found that ADP's employee engagement process left them with a number of manual processes such as vacation tracking, benefits cost tracking and onboarding. This motivated them to improve their employee engagement process and to look for more user friendly reporting options.

**Employee/Manager Self-Service**

**NetGuide**

### BUSINESS IMPACT

The single sign-on and clear communication of available benefit plans within our NetBenefits portal made enrollment in online benefits a simple, streamlined process for Scott + Reid. Employees can also log in to Netchex and all of their information is available right at their fingertips.

Employees have access to W-2s, total compensation statements, payment history and more on their personal dashboards. Additionally, NetGuide's ability to alert individuals of upcoming events and required human resources activities reduced the burden of manual alerts. Overall, employee engagement is improved by giving employees better access to their own information.

### WHY YOU SHOULD CONSIDER NETCHEX

Scott + Reid's employees were able to take control of their benefits selection while eliminating the manual tasks that go along with it. With this access, their overall employee engagement has improved and they have more time to focus on other aspects of their jobs.
